CryptoStruct now offers low-latency access to gate.io

Hamburg – 2 May 2022 CryptoStruct today announced that is has completed its normalized low-latency market data and order entry gateways to gate.io, one of the leading crypto exchanges globally. By using the high-performance strategy framework, CryptoStruct's clients can now easily scale their trading activity onto another exchange and thereby benefitting from higher revenue potentials.

Thomas Schmeling, Managing Director of CryptoStruct, said: *"Adding gate.io to our global crypto exchange coverage enables our existing and prospective clients to easily implement their trading strategies on this well-known exchange. We thank gate.io for their support during the implementation phase and look forward to establishing a great relationship with them."*

Tina Yuan, Global Executive Vice President of gate.io, said, *"We are pleased to establish a partnership with CryptoStruct, where a low-latency trading solution will be one of the key measures to drive the long-term growth of gate.io. Through a deeper and more friendly cooperation, we look forward to the innovation of our joint products and in this way support CryptoStruct's further development."*

About CryptoStruct:
CryptoStruct is an independent software vendor that provides normalized low-latency market data and access to various crypto exchanges globally. CryptoStruct allows its clients to focus on the development of new trading ideas and strategies rather than allocating valuable resources for maintenance work. The sophisticated and easy-to-use software development kit enables a quick strategy implementation which can be easily backtested within the CryptoStruct framework by using historical tick-data for all markets supported. CryptoStruct's high-performance processing is key for its scalability, allowing hundreds of millions of messages to be sent per day in an unlimited trading universe. As trading strategies are the most valuable 'secret sauce' for proprietary trading firms, trading servers can run fully detached without access or visibility for CryptoStruct.

About gate.io:
Established in 2013, gate.io is one of the earliest and largest cryptocurrency exchanges. It is considered as one of the safest and most reliable global exchanges. Gate.io has over 10 million registered users. It is consistently ranked as one of the top 10 cryptocurrency exchanges based on liquidity and trading volume on CoinGecko. It has become one of the verified cryptocurrency exchanges in the market surveillance report of Blockchain Transparency Institute (BTI). It was given a rating of 4.5 by Forbes Advisor, making it one of the Best Crypto Exchanges for 2021.
Gate.io offers other services beyond centralized cryptocurrency exchange, such as decentralized exchange, Gatechain, research institute, venture capital, wallet, data analytic services, NFT, etc.
